7.3 Institutional Distinctiveness

Financial Aid and Quality Education: Ensuring Equity for Rural Students

The primary goal is to inspire and motivate students hailing from rural, remote, and tribal areas who come from economically disadvantaged backgrounds. By providing them with the necessary support, we aim to prevent them from discontinuing their studies due to financial constraints. This initiative is designed to offer financial assistance to all deserving students, irrespective of their caste, creed, or background, ensuring that no student is left behind due to poverty. Additionally, we seek to instill important values such as generosity and a strong sense of social responsibility among these students. The ultimate expectation is that, through this support, students will be empowered to complete their academic degrees with commendable grades. Moreover, we hope that the beneficiaries of this aid will embody the principle of "lend a helping hand without discrimination," extending support to others in need and promoting a culture of empathy and inclusiveness.

The college struggled a lot in deciding the eligibility criterion for the aid. After comprehensive deliberations with students and teachers, it was decided to extend the benefit to all the poor students, who do not have the advantage of government scholarship without any discrimination of caste and creed. Verification of the financial backwardness of the aspirants was yet another challenge.

The specific objective of the Institution is to select, educate, train, and thoroughly equip students to meet the evolving needs of various industries. In order to help realize the aspirations of young individuals from economically disadvantaged communities, the Institution has committed to provide robust financial support through an array of scholarship schemes. These scholarships are part of a comprehensive approach designed to address the financial barriers that might otherwise impede students from pursuing their educational and professional goals.

The various scholarship schemes are meticulously crafted and managed according to a well-defined admission policy. This policy is continually reviewed and updated by the Governing Council to ensure that it remains responsive to the needs of the students and the demands of the industry. By adhering to this structured and adaptive framework, the Institution aims to create equitable opportunities for all students, ensuring that financial constraints do not hinder their educational and career aspirations.

Faculty members, both as individuals and in collaborative teams, play a crucial role in supporting and guiding students through the enrollment process at our institution for their higher education. They proactively reach out to rural and underserved areas, where they

engage with potential students and provide them with essential information about higher education opportunities. This includes detailed explanations of the admission process, the documentation required for application, and the various management scholarships available to them.

Once admitted, students benefit from a learning environment designed to foster critical thinking, effective communication, and creativity. The institution employs student-centric methods like Experiential Learning and Participative Learning, which actively engage students in practical and collaborative activities. Additionally, the integration of ICT tools enhances teaching effectiveness and enriches the learning experience. These approaches collectively boost students' cognitive abilities and support their overall academic and personal development.

One notable example of the positive impact of our institution's support is the college fee assistance provided to students from the OBC category enrolled in the B.Tech program for the academic years 2021-22, 2022-23, and 2023-24. This initiative involved covering the maximum amount of tuition fees for these students, allowing them to focus entirely on their studies without the burden of financial stress. As a result of this support, these students have shown significant improvement in their academic performance and are now more dedicated and committed to their education.

The positive outcomes of this practice extend beyond academic achievements. The financial aid has contributed to a transformative effect on the students' attitudes and behaviors. They are now more engaged, responsible, and motivated in their studies, reflecting the broader impact of the support provided.

The review of this aid initiative reveals that such assistance not only facilitates access to higher education for economically disadvantaged students but also plays a crucial role in shaping them into responsible and proactive citizens. This approach underscores the institution's commitment to fostering both academic excellence and personal development among its students.

Scholarship Policy

Govindrao Wanjari College of Engineering & Technology, Nagpur aspires to impart quality education, equity and access to all the aspiring candidates irrespective of the class and background. In this endeavor, it strives to offer financial assistance in the form of scholarships apart from providing modern infrastructural facilities and other possible academic support for the holistic growth of an individual.

OBJECTIVE: To provide financial assistance to the students from low-income families to meet a part of their day-to-day expenses while pursuing higher studies.

Scope: The scholarship policy/guidelines formulated are applicable to all the students enrolled in various academic programmes offered by Govindrao Wanjari College of Engineering & Technology, Nagpur.

A scholarship is an award that includes offering financial aid to a student to help for their further education. Scholarships are provided as a measure of encouraging the students.

Govindrao Wanjari College of Engineering & Technology offers the following various types of scholarships to the students belong to Open (EBC) and OBC category:

1. Govindrao Wanjari Shikshan Uday Scholarship Award (S1)
2. Rural Youth Empowerment Scholarship Award (S2)
3. Women Empowerment Scholarship Award (S3)
4. Differently Abled Scholarship Award (S4)
5. Wanjari Association Scholarship Award (S5)

Eligibility Criteria for Scholarship Award is as follows:

Sr.No.	Name of Scholarship	Scholarship ID	Eligibility Criteria
1	Govindrao Wanjari Shikshan Uday Scholarship Award	S1	Students taking admissions to first year or direct second year of engineering or MBA till completion of their program who are coming from financially weaker section. Applicant's annual family income must be Rs. 2,50,000 (Rupees Two Lakhs fifty thousand) or less.
2	Rural Youth Empowerment Scholarship Award	S2	Students taking admissions to first year or direct second year of engineering or MBA till completion of their program who are coming from rural areas.
